

STANBURN NEWS

Reading Rockstars!

17.11.23

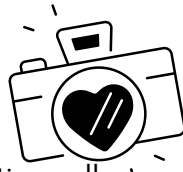

This week has been a very exciting week at Stanburn Primary School - our vending machine has had its first customers! Children who have been reading frequently at home, trying hard during VIPERS and phonics lessons and going above and beyond when writing in their reading diary, have been rewarded with a free book! Here are some of the very happy faces of the children retrieving their book from the vending machine below.

School Photographs

Even the equipment needs a lunch break!

Although it caused a huge amount of disruption, all children had their photo taken today. The photographers commented on the wonderful behaviour of the children.

Thank you to 6 Silver who performed a very informative class assembly around anti-bullying week. They gave such good advice on what we should do to ensure the school is a safe and welcoming space.

My favourite photo of the week.

Eleanor in Reception was so proud to receive a book from the vending machine. Just look at the joy on her face. This is what makes my job the best in the world!

MEET THE TEACHER

Mr Condison

Mr Condison (or 'Coach' as he is affectionately called by the children) supports the playing of sport at lunchtime. He has been an excellent addition to the Stanburn family and has really helped the behaviour at lunchtime.

Mr Condison developed a love for basketball in high school, playing for his club 'Brent Ballers.' Eventually he went on to give back to his community; starting his career as head basketball coach at the age of 19 for his youth team Harrow Blackhawks Basketball Club, coaching players from ages 5 - 20yrs.

Since 2014, he has coached after school basketball clubs and camps at a number of different schools within Harrow and Brent; which includes Hatch End, Nower Hill, Claremont High School, Preston Manor School and many more.

He is still currently Head Coach of Harrow Blackhawks Basketball Club who regularly take part in the CBL (Community Basketball League) on weekends. His goal is to continue to use sport as a tool to teach our young people discipline, respect, responsibility, teamwork and the value of hard work.

PARENT FEEDBACK

"Thank you for asking. It is always so nice to see that a school seeks feedback on how to improve."
