

13th October 2024

Dear Parents and Carers,

This week we celebrated Harvest; Miss Larkin led our assemblies demonstrating (with carrots) that appearance doesn't always tell you what's on the inside. In addition, she taught some lovely new harvest songs which the children (and staff) thoroughly enjoyed. On Thursday we celebrated World Mental Health Day 🟡 by wearing yellow. Miss Raine prepared materials for staff to discuss the importance of good mental health with the children. Staff attended training last week on maths, emotional literacy, writing, neurodiversity and raising standards. We had a governor check-in visit and the Parent Ambassadors met with members of the leadership team with questions and suggestions to improve the school further.

Next week, we involve the children in Recycling Week. Mrs Malik, our sustainability lead and Miss Raine have organised informative assemblies from Harrow Council with various activities and competitions for the children to get involved in. ♻️

Oh, and we haven't forgotten it is Black History month; children are being taught this through their curriculum learning with black artists, poets and authors being studied.

Warm wishes

Ms D'Souza
